IMPORTANT COMMUNITY NEWS - PLEASE READ CAREFULLY

The WVSCA Board recently approved filing a petition in the Cecil County Circuit Court requesting the Plaintiffs who are suing the Civic Association to be found in contempt of court. To ensure that all residents have accurate information and to avoid further rumors misrepresenting the court order, please take time to read official documents enclosed:

1. Petition filed in the Cecil County Circuit Court (Attachment A).
2. SDAT "status" of the Environmental Preservation Association (Attachment B).
3. Maryland Code definition for merger (Attachment C).
4. Court Order of June 2010 (Attachment D).

Because of the Plaintiff's denial of the CA/EPA merger and their refusal to obey the court order of June 2010, the Civic Association Board and our attorney believed the petition filed was appropriate and necessary. The Civic Association Board has found itself in a constant battle to dispute rumors as well as defend itself in and out of court. The Civic Association Board has no hidden agenda regarding the basin area, roads or anything else that has been rumored. We have shared and will continue to be transparent at our community meetings and in all our communications.

It is our hope that filing the contempt petition will bring an end to needless opposition and help focus on the best interests of the community. If you have any questions, we urge you to contact the listed Civic Association Board members directly. Please do not rely on the interpretation of others. Thank you.
