## **DNR PROTECTED AREA**

The Common Area of our community which is between the shoreline and Basin Road has been designated by the Department of Natural Resources as an environmentally protected area. It is our responsibility as a community to maintain it and to ensure that it is protected from damage. We must obtain permission from the county and/or state to carry out some maintenance of the area.

We ask that vehicles of all kinds keep out of the area except for certain special events. It is important that all residents and visitors comply with this request.

## **KEEPING THE COMMUNITY WELL MAINTAINED**

Please help keep the community well maintained by trimming back trees and shrubbery that are sometimes unsightly and may also interfere with safety on our roads by blocking sight at intersections. Also, please do not spray mowed grass on the roads as it contributes to deterioration of the asphalt. We are fortunate to have very good roads and want to keep them that way.

## **DIRECTORY ON WEBSITE**

We had general agreement at the Spring Meeting that we should put the directory on the website rather than print it in the future. By doing this we will not need to solicit ads to cover printing costs and we will be able to update information regularly. It will be printable for those folks who want a hard copy.

**The directory will be password protected. A password will be given to West View Shores property owners only. The password will be given in the invoice for maintenance fees annually.**

## **UPDATE YOUR INFORMATION**

Please update your information so that we will have accurate contact information for you. The newsletter is emailed to those with email addresses so please provide it to us to save mailing costs. Also, for those of you who are not in the community regularly, a neighbor can contact you if something is wrong on your property. This has been the case in the past and has been helpful to property owners.
